

# ZTRANZIT TOKEN (\$ZTNZ) WHITE PAPER

## **INTRODUCTION**

*Ztranzit token is fuelled by ai\_Delivery a registered company in Africa aimed at using blockchain Technology to revolutionize the way parcels/items/goods and services are transported or delivered from one point to another. By doing so, creating jobs or source of income for millions if not billions of people in the developing as well as developed countries.*

*Our solution is to provide jobs or earning opportunities especially for people in the developing world by creating a platform on which just about anyone, anywhere in the world with internet connection and a mobile phone can post a request for a delivery and have someone in that same locale respond to that request.*

*A peer to peer delivery system that will allow for delivery of whatever you want to your door step. Even the little things or items on your grocery list can be delivered to you at home by someone who happens to be at d grocery store at the time your request was made public. Travellers can also take up deliveries to another city or country and earn incentive for their services*

## **TECHNOLOGY**

*ZTNZ token is an ERC20 standard token which is created on an Ethereum (ETH) blockchain. It has value and can be sent and received like Bitcoin, Ethereum, Litecoin or any other blockchain asset.*

*ZTNZ token will be different from other Ethereum assets as it will be incorporated into the subsequent version of ai\_Delivery App or website to be used as one of the methods of payment for delivery or logistic services. And will also be made easily convertible to fiat around the world by creating a section on the ai\_Delivery App for sellers to place ZTNZ token sales adverts and for buyers in the same locale to purchase by making bank transfer.*

*This means it can also serve as point of entry for newbies. Who can purchase ZTNZ with fiat on the App then swap on an external exchange to any other digital currency like bitcoin etc.*

## ***UTILITY***

*One problem ZTNZ investors shouldn't have to worry about is the useability of the token. Before seeking partnership the token will be first incorporated into the ai\_Delivery App for it to be used as one of the major means of payment. Special incentives will be*

*put in place to make ZTNZ the most preferred option for payment s and receipts.*

*As the company expands and diversifies in the future the use of ZTNZ will be encouraged across all its platforms and subsidiaries.*

*For those new convert to crypto, ZTNZ will eventually be used as a means of entry that is by converting fiat to ZTNZ before any other crypto because the ai\_Delivery app intends to make it one of the easiest crypto to get hold of.*

*Even without buying one can work for it by taking up delivery request to earn some ZTNZ.*

## **OUR SOLUTION**

*Ai\_Delivery platform aims not only to transform the logistic, delivery and traveling trends but intends to transform lives by providing jobs for millions of people both professionals and unprofessional especially in African and Asian countries. that's why 60% of funds from the Initial Exchange Offering (IEO) will be put into MASSIVE Advertisement and promotional campaigns.*

*And with Ztranzit token, payment across borders just got easier.*

## **TOKEN DISTRIBUTION**

*The total Ztranzit token that will ever exist is 3,000,000 (three million) of which 1million will be held in a **LOCKED** wallet for 4yrs by the company for future developments and project. Development team will hold 400,000 ZTNZ which will only be distributed or **UNLOCKED** after 2years. 100,000 ZTNZ will be used for promotional purposes. 1,500,000 ZTNZ will be offered at 2% discount on the Initial Exchange offering (IEO) at the cost of \$0.40 for each ZTNZ token(2% will be added to total purchase made by individuals) which means two percent profit even before trading commence.*

<i>DISTRIBUTION</i>	<i>PERCENTAGE</i>	<i>AMOUNT OF ZTNZ</i>
<i>Total ZTNZ in Existence</i>	<i>100%</i>	<i>3,000,000</i>
